To Whom It May Concern:

SEMASS Partnership has worked closely with the Town of Rochester since their development activities began.

If there have been any concerns or issues, they have always promptly and satisfactorily responded. SEMASS's concern for environmental quality and attention to detail is of tremendous importance to our community and has resulted in a cooperative working relationship, benefiting all.

While I can speak directly only for the Board of Health, our town officials and Boards and Committees who have worked closely with SEMASS, have expressed similar opinions.

The Town of Rochester is proud to be the Host Community for this excellent facility.

Sincerely yours,

John Lafreniere

Chairman
