SEMMASS PARTNERSHIP

Mr. Richard Klinger, Supervisor
c/o Lucille Salitan
Box 93
Canaan, New York 12029

Dear Ms. Salitan:

The Board of Selectmen from the Town of Rochester wishes to go on record and state that there as always been complete cooperation and openness between the Town officials and the SEMASS facility representatives/officials since the inception of the idea of a waste-to-energy facility being located within our Town. Over the years when discrepancies, confusion, or problems have arisen, all those involved have worked cooperatively and with openness to take care of and eliminate whatever has occurred. We all have realized that problems do arise from time to time within the site or within close proximity to the plant that may affect neighbors, but those problems additionally have always been taken care of to the best ability of officials involved with the particular problem at hand.

Our ongoing business relationship with the SEMASS Partnership has never been less than one that benefits the Town and its residents.

Thank you.

Very truly yours,

BOARD OF SELECTMEN
